

Installation Instructions

DCU's Heavy-Duty front full replacement tube fenders designed to fit 1997 to 2006 Jeep Wrangler. These close fitting tube fenders are designed for maximum tire clearance. These tube fenders are designed to be a full replacement fender with a mini inner fender well that can be easily trimmed to fit aftermarket shock towers or shock hoops, but still offer an area under the hood to mount items to. Innovative design with a small inner fender well which allows you to install them WITHOUT DESTROYING your factory fenders.

Start by removing the installed items attached to your factory inner fender wells, which can be remounted later. Remove fenders and disconnect marker lamps and turn signal plugs.

NOTE: We highly recommend mounting the new tube fenders prior to painting or powder coating to ensure proper fit. At this time, you can also drill holes or build small brackets to remount the items that were attached to the factory inner fender wells.

NOTE: Holes will need to be drilled for the factory hood hold downs.

Once satisfied with the fit, the fenders can be painted or powder coated. NOTE: Some finish work may be necessary before painting or powder coating.

Once the painted tube fenders are installed, the 3/4" hole at the front of the fender in the gusset can be used for most aftermarket amber LED lights and can be utilized for your front turn signals. Your existing wiring can be easily attached to the LED lights.

NOTE: Some adjustment with the grill, hood, or body tub may be necessary for proper fit of the new tube fenders.

FIT and TOLERANCES: All parts sold by Dave's Customs Unlimited, LLC are the results of countless hours of research, testing, fitting, and refining. There is a large variation in tolerance from vehicle to vehicle. In addition to the factory tolerances, most people install other than factory equipment (aftermarket add-ons). Dave's Customs Unlimited, LLC has done the best job we can to ensure that our parts fit with some of these possibilities. This is why Dave's Customs Unlimited, LLC installs "several slots" in which to mount our brackets and other products; however, you may find it necessary to grind, elongate, bend, or force the parts you buy to fit on your particular vehicle. Be sure that you want to install them before you modify them. Please use common sense when installing these parts and let us know how we can improve them.
